Enter the new era of MICROSYSTEM DESIGN

MICROPROCESSOR SYSTEMS: Software and Hardware Architecture delivers a wealth of information about microcomputers, peripherals, networks, signal processing and software, that leads the field in the 80's!

This book is a comprehensive collection of technical articles, carefully detailed and presented, in exclusive reprints from *Electronics Magazine*.

Corporate Managers, Project Managers, Design Engineers, Market Managers: **MICROPROCESSOR SYSTEMS: Software and Hardware Architecture** is one book for all!

Six knowledgeable chapters examine:

- Significant trends in the development of new software systems and applications
- Technical articles on the manufacture of new microprocessors
- Approaches to memory management used by major chip manufacturers
- Conveniences of peripheral chips
- Alternative network methods from Ethernet to token-passing protocols
- Modular procedures for making digital signal processing systems

Engineers - Save precious time by eliminating a cumbersome series of software instructions.

Directed chiefly at design tactics, **MICROPROCESSOR SYSTEMS: Software and Hardware Architecture** helps you avoid errors and overcome all your architectural problems.

- Brings you the needed simplicity of design, without sacrificing performance of the finished system
- Offers a means of tapping microsystems into the power of mainframe machines
- Recounts major breakthrough in dedicated chips that handle math operations in record time

Here it is -

MICROPROCESSOR SYSTEMS: Software and Hardware Architecture - Let it design for you!

Don't be left in the dark: **MICROPROCESSOR SYSTEMS: Software and Hardware Architecture** illuminates the design process of an ever changing industry.

Edited by Stephen Evanczuk,
Microsystems & Software
Editor, *ELECTRONICS*

In one resourceful volume, **MICROPROCESSOR SYSTEMS: Software and Hardware Architecture** lets you understand:

- Functions of hour end microprocessors and controllers
- Key microprocessors that trigger the personal computer revolution
- The importance of dedicated chips more sophisticated than mainframes of yesteryear
- Significant aspects of microcomputer software
- Efficiency of peripheral-control chips

Peerless. Every time is the right time.

It's all in the way we've chosen to do business. We've put it all together. With the finest products. With great diversity and depth of inventory. With ultra-modern facilities. With excellent pricing. With experienced people. And so much more.

Peerless delivers. On-time and to specification. Standard or value-added products. Regardless of customer volume. Thanks to our on-line computerized inventory control system. So your production lines run on schedule. Always.

Our 800 numbers make ordering faster and easier. And our sales department can simplify the toughest special parameter. Plus we'll assist you by supplying innovative solutions to problems, such as arranging for samples and technical support.

It's all part of our business philosophy. And has been for over 40 years.

Peerless. Every time is the right time.

AC and DC Tubeaxial Fans

imc IMC MAGNETICS CORP.
NEW HAMPSHIRE DIVISION
ROUTE 100, RICHMOND, NEW HAMPSHIRE 03277

Circle Reader Service No. 300

Catalog is devoted to technical information and illustrations on the full line of IMC's off-the-shelf tubeaxial fans. Featured are IMC's famous Boxer® and Fulmar® models.

IMC VANEAXIAL FANS

imc IMC MAGNETICS CORP.
ELECTRONICS DIVISION
1000 PARKWAY, NEWTON, MASSACHUSETTS 02459

Circle Reader Service No. 301

Portfolio contains spec. sheets on IMC's complete line of large vaneaxial units. Fans are ideally suited for cooling applications requiring a large volume of air.

Custom Power Supplies

imc IMC MAGNETICS CORP.
POWER SUPPLY DIVISION
1400 E. 5TH AVE., RICHMOND, VIRGINIA 23134

Circle Reader Service No. 302

Catalog shows how you can benefit from IMC's consolidation of resources as well as other information pertaining to their custom built power supplies.

- AC Timing Motors
- DC Motors
- Clock Movements
- Stepping Motors

imc IMC MAGNETICS CORP.
ELECTRONICS DIVISION
1000 PARKWAY, NEWTON, MASSACHUSETTS 02459

Circle Reader Service No. 303

Catalog gives general specifications on Synchron® AC timing motors as well as Magna-Torc DC motors. Products include clock movements, chart drives and slip ring assemblies.

TORMAX Steppers and Controls

imc IMC MAGNETICS CORP.
STEPPERS DIVISION
1927 HAWTHORNE AVE., CARLETON, CALIFORNIA 95701

Circle Reader Service No. 307

Catalog features specialty stepping motors and listing of controllers to drive them. Also chapters on theory of operation, excitation modes and applications.

DC Motors and Motor/Encoders

imc UNIVERSAL MAGNETICS CORP.
DIVISION OF IMC MAGNETICS CORP.
1400 E. 5TH AVE., RICHMOND, VIRGINIA 23134

Circle Reader Service No. 304

Catalog features DC motors and motor/encoders along with performance data and specifications.

ASTROSYN Stepping Motors

imc IMC MAGNETICS CORP.
STEPPERS DIVISION
1927 HAWTHORNE AVE., CARLETON, CALIFORNIA 95701

Circle Reader Service No. 305

Catalog features Mini-Angle type stepping motors. Also contains engineering information and application examples.

Stepping Motor Drive IC

ASTROSYN

imc IMC MAGNETICS CORP.
STEPPERS DIVISION
1927 HAWTHORNE AVE., CARLETON, CALIFORNIA 95701

Circle Reader Service No. 306

Brochure features stepping-motor drive IC chip which is intended for a wide variety of applications. Contains diagrams & tables on excitation, modes & applications.
